

Stakeholder Engagement Disclosure

EVOLUTION PETROLEUM CORPORATION

SEPTEMBER 29, 2021

Evolution is committed to regular and collaborative stakeholder engagement, and we identify stakeholders as those groups upon whom our success depends, as well as those who are affected by our business. We view this area of active engagement as a key tenet of effective and responsible corporate citizenship.

A variety of methods are utilized to engage in communication with our stakeholders, including broad dissemination of information through the use of press releases, quarterly earnings conference calls, corporate presentations, and other events and materials available through our website (www.evolutionpetroleum.com) We also leverage more interpersonal methods of communications, including in-person, telephonic, and web-based meetings. Following interactions with our stakeholders, we provide feedback throughout the organization to promote further alignment with our stakeholders' interests, as appropriate.
